## The International Exhibition of 1892,

*wherever held, will emphasise the need for a better knowledge of Modern Languages.*

It is a trite observation that he who knows but his own language can hardly be said to know that. As Roger Asham, "The Schoolmaster," quaintly says: "Even as a hawk flieth not high with one wing, even so, a man reacheth not excellence with one tongue."

## Hossfeld's New Practical Methods

FOR THE STUDY OF

### **MODERN LANGUAGES.**

**GERMAN, FRENCH, SPANISH, ITALIAN,** } Originally issued and recommended by the Society for promoting a Knowledge of Foreign Languages, of London. A concise and excellent method on a clear scientific basis, consisting of a complete Grammar, a series of exercises and conversations exemplifying the rules, and Reading Lessons.

**No Vocabulary Required with this Method.**

## BATTERY

For the Laboratory or other Purposes.

### Reference.

CAZENOVIA, N. Y., January 8, 1890.

I have used the "Fitch Battery" for upwards of eight years, and it has proved the best of all the batteries with which I am acquainted. I am also using Induction Coils, Motors, Electro-Magnets, Bells and other electrical apparatus, made by the Fitch Company, and every piece is giving the utmost satisfaction.

NICHOLAS KNIGHT, A. M., PH. D.,

Department Natural Science, Cazenovia Seminary.

HAMILTON, N. Y., January 9, 1890.

*Dear Fitch.*—Yes, of course I will add my little say to the good things your battery is receiving and deserving. I have as yet made no exact tests of efficiency, but the fine work which they are doing on my telephone and signal lines makes me sure that all you claim is true to the letter.

For cleanliness, durability and simplicity of action, I know of nothing which compares with it among other batteries.

Truly yours,

E. H. LOOMIS,

Department Physical Science, Colgate Academy.

**QUICK'S EDUCATIONAL REFORMERS.** By Herbert Quick, M. A., Trinity College, Cambridge. 12mo. Cloth. Price, \$1.00.

"We have read this book twice. There is no other resume that is at once so brief and so comprehensive; we do not see how intelligent parents, teachers and school directors can afford to be without it. . . . The influence it could exercise is just now much needed in our national educational system."—*Atlantic Monthly*.

## Phonographic Instruction Books.

BY ELIAS LONGLEY.

For 25 years a practical verbatim reporter and teacher of the Phonographic Art.

I. **LONGLEY'S MANUAL OF PHONOGRAPHY.** A Complete Guide to the Acquisition of "Pitman's Phonic Shorthand," with or without a Master. 12mo. 144 pages, with stiff paper covers, 65 cents; cloth 75 cents.

A practical book for a practical man. The system is Isaac Pitman's, with the most helpful American improvements. The book leads the student through graded exercise, and avoids burdening his mind with a word or mark that is not strictly necessary. The principles and rules are always practical, and the abstract philosophy of the language is not gone into.

II. **LONGLEY'S REPORTER'S GUIDE.** Designed for Students in any Style of phonography; in which are formulated, for the first time in any work of the kind, Rules for the Contraction of Words, Principles of Phrasing, and Methods of Abbreviation. Abundantly illustrated. 12mo. 248 pages. Cloth, \$2.00.

III. **THE AMERICAN PHONOGRAPHIC DICTIONARY.** Exhibiting the Correct and Actual Shorthand Forms for all the useful words of the English Language. 12mo. Cloth \$2.50.

IV. **COMPEND OF PHONOGRAPHY.** 12mo. Paper, 25c.

V. **THE PHONOGRAPHIC READER AND WRITER.** 12mo. Paper, 25c.

VI. **WRITING EXERCISES FOR GAINING SPEED.** Paper, 25c.

VII. **SHORTHAND DICTATION EXERCISES.** 12mo. Paper, 25c.

VIII. **MRS. LONGLEY'S CALIGRAPH LESSONS.** 4to. Paper, 50c.

Teachers who are interested in securing for their students the very best compilation of Readings and Recitations should get

## Garrett's "One Hundred Choice Selections,"

of which there are now twenty-nine numbers ready. These selections embrace Oratorical, Sentimental, Heroic, Temperance and Humorous topics, suitable for any and all occasions. They are carefully edited, neatly printed, of convenient size, and low in price. Throughout the entire series no piece is duplicated, so that each number differs from all the others.

A Supplement containing Life Thoughts, Funny Sayings and Conundrums, furnishes an ample fund of sentiments for roll call responses, amusement in the social circle, and elsewhere.

The Dramatic Supplements appended to the various numbers, are replete with Amateur Plays and Dialogues of a high order of merit. These are free from coarseness, easy of arrangement, and of varying lengths.

Price, per number, paper bound, 30 cents; cloth bound, 60 cents. For sale by Booksellers or mailed free on receipt of price. A reduction for the entire set. Send for full Descriptive Catalogue.

### The College Building,

The gift of Professor Lane, is an imposing brick and stone structure, five stories and basement in height, and having a frontage of eighty feet on each of two streets.

### The Three-Year Curriculum

Is adopted by this College; attendance upon three Regular Courses—at least one in this institution—being obligatory. A matriculation examination, or other evidence of possessing a fair education, will be required on entering.

### The Regular Course

Of Lectures commences on the first Monday in June of each year, and continues until November. It is thus a Summer course, contrary to the general usage.

### The Intermediate Course

Commences on the second Monday in January of each year, and continues nearly four months. It is of great assistance as a preparatory step to the Regular Course, and as offering the fullest opportunities for the prosecution of dissection. Although attendance upon this course is not obligatory, except in the graduating year, it is earnestly recommended that all attend it who can possibly do so.

Clinics are given regularly at the City and County Hospital (450 beds) and the Morse Dispensary, where several thousand patients are treated annually.

### Requirements for Graduation.

1. The candidate must be of good moral character, and at least twenty-one years of age.
2. Must have attended three Regular Courses of Medical Lectures, one of which must have been delivered in this institution, and two Courses of Clinical Instruction. Attendance upon the Intermediate or Winter Course will not fill the conditions of this requirement.
3. He must have attended at least one Course of Practical Anatomy in the dissecting room, and present evidence of having dissected the entire subject.
4. He must write a Medical Thesis, and submit the same to the Faculty on or before the 1st of October.
5. He must have passed successfully the examinations required by the Faculty, and have paid all fees due the College.

Graduates from other Medical Colleges in good standing, desiring to attend lectures, are required to matriculate only. Those desiring the degree are required, in addition, to present satisfactory testimonials of character and professional standing, to submit to examination in the various branches, and to pay a fee of fifty dollars.

### Boarding

Students may obtain good rooms and board at prices varying from five to ten dollars per week.

All further information that may be desired can be obtained by applying in person or by letter to

## Some Items in the History of the University.

The charter of what is now known as WASHINGTON AND LEE UNIVERSITY was first granted in 1782 to Liberty Hall Academy, a school established by the early settlers of the Valley of Virginia, in 1749, and until the Revolutionary War called the Augusta Academy.

In 1796, General Washington bestowed upon Liberty Hall Academy James River Company stock, valued at \$50,000, voted to him by the Commonwealth of Virginia in acknowledgment of his services in the Revolution, but accepted by him on the express condition that he should be permitted to endow therewith some institution of learning. The name Liberty Hall Academy was then changed to Washington Academy, and this in 1813 to Washington College.

In 1803, the Institution received the further endowment of \$25,000 from the Society of the Cincinnati, and in 1826 a gift of \$40,000 from John Robinson, a soldier under Washington. In honor of these munificent benefactions, the Trustees established the "Cincinnati Professorship of Mathematics," and the "Robinson Professorship of Chemistry."

In 1865, General Robert E. Lee accepted the Presidency of Washington College, a position which he held until his death, in 1870.

In 1871, General G. W. Custis Lee succeeded his father in the Presidential chair, and in the same year the Legislature of Virginia changed the name of the Institution to its present corporate title—THE WASHINGTON AND LEE UNIVERSITY.

## Location.

Lexington is situated in the county of Rockbridge, in the Valley of Virginia, and is surrounded by beautiful mountain scenery. The healthfulness of the climate is attested by the fact that no student at the University has died of disease for a period of more than thirty-five years. For students subject to miasmatic disease residence here often produces the most beneficial effects.

## Organization of the University.

The essential features of this organization are:

1. The arrangement of the subjects taught into distinct elective departments. Students may elect their own studies; but in each department there is a prescribed course, which the student is required to pursue according to the degree of his preparation. Promotion is accorded upon actual attainments, and certificates are conferred at the end of a complete course, after a thorough examination.

2. The adaptation of the several departments to certain *courses of study*, to each of which is attached a degree. Students are encouraged, as far as possible, to pursue and complete some one of these several courses.

Each of the two Academic Degrees of the University—Bachelor of Arts and Master of Arts—can be reached by several different courses. In order that students may have scope for the exercise of individual taste and talent, the courses are so selected as to allow the largest liberty consistent with thorough culture.

The degree of Doctor of Philosophy is intended to encourage study after graduation. The degrees of Civil Engineer and Bachelor of Law are attached to these professional schools. No degrees are conferred in course; all are based upon actual attainments in a prescribed course of study.

3. A system of honors, prizes, etc., adapted to the encouragement of general scholarship, as well as of distinguished proficiency in particular branches. These are increased in number as fast as the funds of the University or the liberality of friends renders it possible.

# KNOX COLLEGE,

GALESBURG, ILL.

*One of the Oldest and Strongest Colleges in the State, will  
begin its work in September, 1890, with a Larger  
Corps of Instructors, and with Greater  
Facilities than ever before.*

Its literary standard in all its courses is that of the best American colleges. The moral tone of the institution is pronounced and healthy. Order is the established law of its life. Industry and good conduct characterize its students. Hazing, rowdism, and like barbarisms, are unknown.

The advantages offered by the CONSERVATORY, in both Vocal and Instrumental Music, are unsurpassed; while the DEPARTMENT OF ART offers unusual advantages for students of Drawing and Painting.

KNOX SEMINARY, with its well carpeted and furnished rooms, lighted with gas and heated with steam, makes a very pleasant school-home for the young ladies.

KNOX ACADEMY is one of the best secondary schools in the West, and deserves its large patronage of students fitting for College or for a business life. Its Commercial Department equals that of the best business colleges.

The new KNOX COLLEGE OBSERVATORY is unsurpassed in completeness for practical work in Astronomy. The Observatory is in charge of a thoroughly-trained practical Astronomer already distinguished in his specialty.

The College gives particular attention to Physical Education, by means of systematic training in gymnastic exercises, and military drill by an officer of the U. S. Army. Students of all departments have these advantages without extra charge.

The institution is free from those extravagant fashions and usages, whereby students of scanty means are practically excluded. The life of the school is simple, unostentatious and manly; its atmosphere wholesome and bracing. The attendance is steadily increasing, being greater now than ever before since the institution was founded. A spirit of devotion and loyalty to the College is notably present in all the classes and departments, and is an element of untold strength to the institution.

The endowment has recently been increased by a donation of \$50,000.

The College is located in a beautiful city, remarkable for its healthfulness, and is surrounded by parks and grounds of ample extent and very attractive. It is easily reached by rail from every direction.

The Fall Term begins Thursday, September 4, 1890.

This Institution was established by the General Assembly of the State in 1857. Its sole purpose is to prepare teachers for the schools of the State. The several grades of the Model Department are established to aid in this work. Nevertheless these grades serve well the purpose of those wishing instruction in the subjects taught.

Students in the Normal Department are required to declare that their purpose in attending is to fit themselves for teaching; and all the work of the school is shaped to this single purpose. Probably no other Normal School Faculty in the country embodies so much of successful experience in Normal School work as ours. Tuition is FREE to those who take a pledge to teach in the schools of Illinois. Our facilities for the study of Botany, Zoology, Geology, Chemistry and Mineralogy, are excellent, and we now offer them to such as desire to make those studies a SPECIALTY at a very small cost.

## THE HIGH SCHOOL

grade of the Model Department offers the advantages of a first class academy and preparatory school. There are two courses of study—the General and the Classical. Those who satisfactorily complete either course, receive the Diploma of the University. The Classical course gives a thorough preparation for our best Colleges; our graduates enter Harvard and Yale without difficulty. The General course offers excellent opportunities to those who do not have the time or inclination for an extended College course. Tuition in this grade, \$30 a year. For particulars concerning the High School, address the Principal.

## THE GRAMMAR-SCHOOL

grade is under the charge of the Assistant Training Teacher; he does much of the teaching, sees that healthy discipline is maintained, and takes care that no improper or vicious pupils are admitted to the school. This school prepares pupils for the Normal Department, for the High School, or for general business. The instruction is given by teachers who are trained in the best modern methods, and who are under constant and efficient supervision. Pupils who complete the Preparatory Course, are promoted to the High or Normal School without further examination. Tuition in Grammar grade, \$25 a year. For catalogue, etc., address

**Fourth Session Opens September 2.**

## THE COURSE OF STUDY

is thorough, equal to that of any college in the State.

## ITS MUSICAL ADVANTAGES

cannot be surpassed in the South. A German professor of music has been employed who studied at Berlin and Leipzig, the finest conservatories of music in the world; teaches vocal and instrumental music after the European methods.

## ART,

in all its branches, is taught by an excellent teacher.

## ELOCUTION,

so essential to a good education, receives special attention.

## THE THEORY AND PRACTICE

of teaching receive careful attention throughout the course.

## THE COMMERCIAL COURSE

is thorough and practical and is in charge of an able professor.

## THE MILITARY

is an attractive feature to young men. The college is supplied with guns by the State.

## CALISTHENICS

for girls is indispensable. It gives a healthy tone to the body, develops the muscles, and adds grace to the carriage.

## TWO HUNDRED STUDENTS

were enrolled last session and eight teachers were employed.

## THE CHAIR OF MATHEMATICS

has recently been filled by F. W. Pettway, of the University of Alabama, and who has also taken a special course in the Normal University, Lebanon, Ohio.

## BOARD

can be had with teachers or in private families at \$10 per month.

Tuition in Literary Department from \$1 to \$5; Music \$3 to \$6; Art from \$1 to \$4, all according to grade.

For catalogue or further information apply to the President.

# Tulane University of Louisiana.

SESSION OF 1889-'90.

Tulane University embraces a High School, College, University Course; Law and Medical Departments, and the H. Sophie Newcomb Memorial College for young women.

The High School course is of 3 years, with Manual Training, and prepares for business or for college. The College has four parallel courses, two of which, Literary and Classical, lead to the degree of Bachelor of Arts, and two of them, the Scientific and Engineering, to the degree of Bachelor of Science. Special course in Electrical Engineering. The H. Sophie Newcomb Memorial College, endowed by Mrs. Josephine Louise Newcomb, offers the advantages of higher education to young women.

The Law and Medical Departments have been in successful operation for more than half a century, and offers large facilities to students. Attendance has steadily increased.

All departments of the University are well equipped with Laboratories, Scientific Apparatus, Libraries and other appliances of instruction.

The Linton-Surget Art Rooms have recently been opened, and are enriched with paintings, statuary, books and *objects d'art*, donated by Mrs. M. L. Surget and Mrs. C. B. Surget, of Bordeaux, France.

Boarding is reasonable in New Orleans. The climate is delightful, and excellent opportunities are afforded for the acquisition of modern languages in connection with literary, scientific and professional study.

The Baltimore College of Dental Surgery, the first and for many years the only Dental School, offers facilities for the study of Dentistry proper, such as age and experience only can give. Its immense *museum*, complete apparatus, large and well arranged building, and carefully-studied *curriculum* give to its students great advantages and opportunities, both theoretical and practical, while its age gives its Diploma a dignity far outranking all other Colleges—a diploma honorably represented in all civilized countries, and held by the most distinguished members of the Dental Profession.

The fact that Dentistry must be *practically taught* is fully recognized, the *College Infirmary*, a most complete, large and handsome *Hall*, being daily filled with clean and respectable patients, of a class nearly equal to those of the average dentist. *This Infirmary is open all the year*, students paying an entrance fee which is deducted from those of the regular succeeding course.

The Session begins Oct 1 closing in March. A large corps of Demonstrators, always present, put in actual practice the teachings of all lectures on Dentistry—leaving nothing undemonstrated. *All methods are fully taught*, all appliances and apparatus used; the making of instruments and the most elaborate gold and continuous gum-work, and all the cases arising in ordinary practice, with many which are rarely seen, carefully demonstrated.

The College has formed an alliance with the College of Physicians and Surgeons by which its students are privileged to attend all lectures and clinics. The patients of this medical school numbered last year over 40,000.

Graduates of the Baltimore College of Dental Surgery are required to attend but *one session* at the College of Physicians and Surgeons prior to presenting themselves as candidates for the degree of M. D. (See Catalogue.) In accordance with the requirements of the National Association of Dental Faculties, the qualifications for entering the Junior Class are a preliminary examination in the ordinary English branches.

**TERMS OF GRADUATION.**—Attendance on two Winter courses of lectures in this College; as equivalent to one of these we accept *one course* in any reputable Dental College. *Graduates in Medicine* who have attended one Winter course in this College and have passed one year, inclusive of the Winter course, in the practical work of the Infirmary and Laboratory, will be permitted to present themselves for graduation.

**BENEFICIARY STUDENTS.**—Each State Dental Society is privileged to send one Beneficiary Student to this College at one-half the regular tuition fees. This has been for some years an established feature of this College.

**FEES.**—Matriculation (paid once only), \$5. Tuition fees, \$100. Diploma fees, \$30. Dissecting fee, \$10. Students corresponding with the Dean will please be careful to give full address, and direct their letters to

The Preliminary Clinical Lecture Course will begin September 15th, 1889, and end September 30th, 1889. The Regular Winter Session will begin Oct. 1st, 1889, and end March, 15th, 1890. The student of medicine is given unsurpassed clinical advantages at this school.

The New City Hospital, a magnificent structure, with a capacity of 300 beds, situated in the center of the city, will be completed and ready for the reception of patients this fall. Its position will enable it to command most of the accident cases occurring in Baltimore. The Faculty have the exclusive right of medical control over it.

The Maryland Lying-In Asylum, established by this school in 1874, was the pioneer institution of its kind in the State. It is full of obstetric cases throughout the year, and furnishes each student with bedside instruction and experience.

The Maryland Woman's Hospital, connected by a covered way with the Lecture Halls, enables the Professor of Gynecology to demonstrate practically the various diseases of woman and to perform operations before the class.

Bay View, the Almshouse of Baltimore, which contains 1250 beds, has recently been thrown open for the clinical instruction of the students of this school.

The City Hospital dispensary, organized over twenty years ago, has become widespread in its influence and adds largely to the clinical attractions of the school. Frequent post-mortem examinations are made before the whole class, and the medico-legal bearings of cases are fully discussed.

The Physiological, Chemical and Pathological Laboratories are fully equipped and in working order. Attendance upon demonstrations is required of each student.

The Anatomical rooms are spacious and airy, and dissecting material abundant. For full information concerning the College, or for the Catalogue and Announcement for 1889-90, address,

THOMAS OPIE, M. D., Dean, N. W. Cor. Calvert and Saratoga Sts.

# Mount St. Mary's College, Near Emmittsburg, Md.

Mount St. Mary's College was founded in 1808 by Father John Dubois, afterwards Bishop of New York. In 1812, Rev. Simon G. Brute, afterwards the first Bishop of Vincennes, was associated with the founder in conducting the College. A new college building was completed in 1824, but on the 6th of June of that year it was destroyed by fire. A larger building was erected and, occupied in 1826. The College obtained its first charter from the Legislature of the State of Maryland in 1830, during the presidency of Rev. John B. Purcell, afterwards Archbishop of Cincinnati. From the year 1838 to 1871, Very Rev. John McCaffry, D. D., presided over the College.

During this first century of its existence, many distinguished men have been educated at Mount St. Mary's College. The names of Cardinal McCloskey Archbishop Hughes, Archbishop Purcell, Archbishop Corrigan, Archbishop Elder, Bishops J. M. Young, Francis H. Gartland, George A. Carrell, John Loughlin, Richard V. Wheeling, William Quarters, John Quinlan, F. P. McFarland, John Conroy, Edward Fitzgerald, Richard Gilmour, William McCloskey, John L. Spalding, John A. Watterson, Francis S. Chatard and H. P. Northrop; Rev. John McCaffry, D. D., Hon. James McSherry, the historian of Maryland, Jerome Bonaparte, Charles Harper, Gen. James M. Coale, George H. Miles, James Meline, Rev. John O'Brien, author of a history of the Holy Mass, Hon. John Lee Carroll, LL. D., Franklin B. Gowan, LL. D., Charles W. Hoffman, LL. D., and Hon. Carroll Spence, LL. D., are found in the list of its alumni.

Since its foundation by Bishop Dubois, there has been maintained in connection with the College, an Ecclesiastic Seminary for the education of missionary priests.

The institution is under the direction and control of an association of clergymen, and in addition to the clergy, there are in the faculty several eminent lay professors. The number of teachers and tutors furnished by the Seminary is such that classes are limited in membership, so that more than ordinary attention can be given to each pupil.

The material interests of the College are under the control of a Board, the members of which are selected from among the more distinguished alumni. The Archbishop of Baltimore, by virtue of his office, is President of this Board.

The College buildings are situated on high ground at the foot of the Maryland range of the Blue Ridge Mountains. The location is pleasant, healthy

and convenient of access. The celebrated Academy of St. Joseph's, and the mother house of the Sisters of Charity, founded by Madame Seton, are in the immediate vicinity. To many parents, the chief advantage presented by Mount St. Mary's College, is its quiet seclusion and remoteness from distractions, excitements, and dangers of the city. The large farm and gardens, belonging to the College, furnish abundance of the choicest dairy products, fruits and vegetables. The vicinity of the College is a delightful summer resort.

The recreation grounds are extensive and well shaded, and contain a gymnasium, ball alleys and ample space for athletic games and all health-giving exercises. Students, during recreation hours, can leave college bounds in the company of a prefect or tutor for long walks through the country. In sickness and in health, the students are cared for, directed and watched over with parental kindness and solicitude.

There is a separate Junior Department in which are educated such youthful students as are not likely to profit by ordinary college discipline and studies. Boys under fourteen years of age are entered as Juniors.

The regular course, for such as desire to take the degrees, embraces the Greek and Latin languages, French (or German, at the option of the student), Moral Philosophy, Logic, Mathematics, Chemistry, Natural Philosophy, Geology, English Grammar and Literature, Geography, History and Christian Doctrine.

In addition to the usual promotions at the beginning of the scholastic year, advancement to a higher grade is sometimes attained at the middle examination by extraordinary talent and industry.

There is a scientific and business course from which the study of Latin and Greek is omitted, and in which more attention is paid to commercial requirements, such as book-keeping, mercantile accounting and kindred branches.

All are required to follow the course of studies prescribed for the department into which they are allowed to enter.

The degree of Bachelor of Arts is conferred on such students as have followed and completed the regular collegiate course. Graduates of the Commercial department who have proved themselves worthy, receive proper certificates.

The sessions of the College begin on the first of September and the first of February, and continue five months each.

Although the College is accessible by rail by way of Frederick, Hanover, Hagerstown, Gettysburg or Mechanicstown, the most convenient route is by way of Union Station, Baltimore, and thence over the Western Maryland and Emmitsburg Railroads.

Information regarding the College can be obtained by addressing Rev. E. P. Allen, A. M., who is President of the Institution.

# ROCKVILLE ACADEMY,

---

This school is located in Rockville, an incorporated town of 1400 inhabitants, as remarkable for its healthfulness as for the intelligence and refinement of its people. As a proof of the superior morality of the town, it may be stated that there are no drinking saloons in it. The location of the school could hardly be more acceptable. It is within a half hour of Washington and an hour and a half of Baltimore City. A thorough academic education in Ancient and Modern Languages, Mathematics and higher English is afforded for the very moderate sum of two hundred and fifty dollars (\$250) per school year of nine months. This amount includes tuition in all departments and board, including washing, fuel and lights. The Principal will take into his own family and carefully attend to, in morals and gentlemanly character, twenty boys.

# MOUNT HOLYOKE SEMINARY AND COLLEGE, South Hadley, Mass.

FOUNDED BY MARY LYON IN 1837.

This widely-known institution for women is situated in the charming valley of the Connecticut, thirteen miles north of Springfield, and four miles south of the picturesque mountain whose name it bears. The grounds are spacious and beautiful, including seventy acres. Besides the principal building, which provides for about 300 students, with thirty-five professors and teachers; and the Lyman Williston Hall, containing recitation and lecture rooms, laboratories, cabinets, and art-gallery; there is a fine library building with 13,000 volumes, a gymnasium, and an astronomical observatory, admirably equipped.

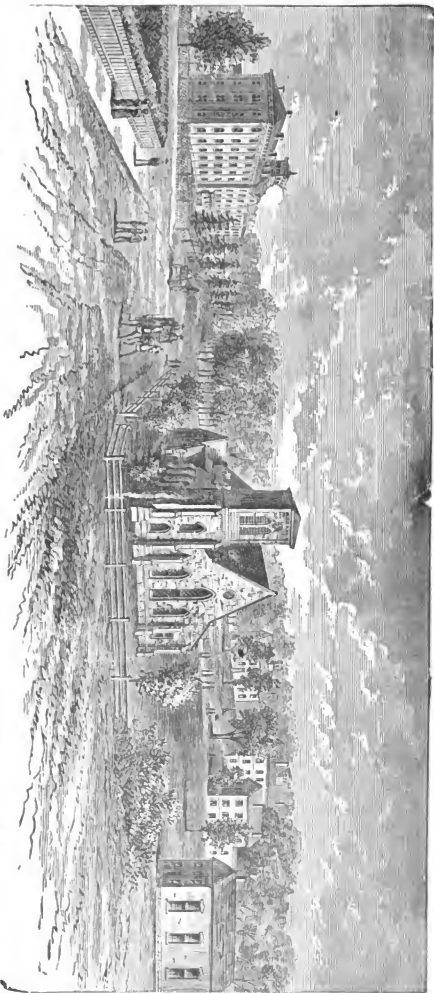

The course of study, always extensive and substantial, has been continually advancing; and in March 1888, the State granted a new charter, conferring Collegiate rank and powers. There are two college courses, the classical and the scientific, leading respectively to the degrees of A. B. and B. S.; the Seminary course is still continued for those who prefer it, as well as the optional courses in French, German and Greek.

Candidates for admission must be not less than sixteen years of age—eighteen is the average on entering—of good health and blameless character. They must also be thoroughly prepared in all the studies required for admission. The opening of the fall term is the time for entering. There are two vacations of nearly two weeks each, besides the long vacation of eleven weeks.

All the students and teachers constitute one family, and mingle constantly in the familiar intercourse of a well-ordered Christian home. Every young lady has her own small but definite share in securing the comfort of the large household. One hour daily spent by each in domestic duties, systematically arranged and well supervised, disposes of the ordinary household affairs promptly and well. Habits of order and system, of self-control and thoughtfulness for others, are constantly inculcated; while the religious influence of the institution, though not sectarian, is positive and strong.

It has ever been one of the chief aims of the institution to bring a superior education within the reach of students of moderate means. The present charge for board and tuition is only \$200 a year, of which \$100 is paid on entering in September, and the remainder at the opening of the winter term. This includes steam-heating and lights, as well as lecture courses. No deduction is made for temporary absences.

The MICHIGAN MILITARY ACADEMY was incorporated September 4, 1877. The aim of this Institution is to give to young men an education, both physical and mental, which shall develop them into the fullest and highest manhood; an education which shall produce, as far as possible, full and perfect men. To this end, the school is established upon a system that combines military instruction with the ordinary courses of high schools and academies.

It is evident that military discipline and regularity, and physical training, are of more importance to youth from the age of fourteen to twenty than at any other period of life. This is *par excellence* the formative period, and the youth who has built well during that time has laid a firm foundation for his future. In schools and colleges are too many students of weak bodies and one-sided development. Health is of prime importance, and nothing is so conducive to health as properly regulated physical exercise and training.

Besides the charm that exists in a military atmosphere which tends to make one upright in principles and morals, as well as in bearing, there is, in a corps of young men where rank and promotion depend upon merit, a healthful incentive to excel found nowhere else.

From the beauty and healthfulness of its situation, the required physical and military training, and the excellence of class-room work, this Institution has gained an enviable reputation as a healthful, thorough, and an efficient school.

## **LOCATION.**

The University is located in Chapel Hill, Orange County, a village remarkable for healthfulness, economy and refinement. By act of the Legislature no intoxicating liquors can be sold within four miles of the village. A branch railroad, ten miles long, connects the village with "University Station," on the N. C. R. R., between Durham and Hillsboro.

## **SESSIONS.**

Each session begins on the first Thursday in September and ends on "Commencement Day," the first Thursday in June. There is a brief intermission of about ten days at Christmas, which divides the session into two terms.

## **TIME OF ENTRANCE.**

Applicants are advised to enter at the beginning of the session in September, but they can enter in January. By entering in September the student is sure of being properly classified, whereas in January many classes are midway in a subject.

## **EXPENSES.**

The University has no boarding department and provides no furniture for rooms. Board may be had in the village at \$8 to \$13 per month. Students can board in clubs at \$8 or less per month. Wood is abundant at \$2 a cord. A liberal allowance for all expenses, including tuition, room, books, board, etc., but excluding clothing and traveling, would be \$300; an economical allowance would be \$200.

F. E. WELCH, A. B.,  
Professor of Greek and Associate in Latin.

None but superior instructors are employed. The *in loco parentis* relation of Faculty and students is adhered to, and all freedom is allowed consistent with the purposes of the institution—the mutual development of Christian manhood.

## LOCATION.

Trinity College is located in the Piedmont section of North Carolina, in the town of Trinity College, Randolph Co., directly on the High Point, Randleman, Ashboro and Southern Railroad, which connects High Point, five miles distant, with the Piedmont Air Line—the main Southern line between Washington and Atlanta.

## ORGANIZATION AND COURSES.

The College has two (2) main departments:

### I. THE ACADEMIC DEPARTMENT.

This includes five (5) courses (18 hours of recitations per week) in all the studies taught in the foremost American Colleges during Freshman and Sophomore years. For admission to this department see catalogue.

### II. THE SCIENTIFIC DEPARTMENT.

This department contains sixteen (16) Scientific Schools, each extending through two years—Junior and Senior—offering a large variety of continuous courses in each school of from (3) to nine (9) hours a week.

The attention of the public is particularly invited to the schools in Political Science, History and Law, Natural Sciences, Mathematics, Engineering (Mining and Civil), the Modern Languages (including English), the Ancient Languages, Philosophy, Pedagogics and Theology.

For admission to any of these schools, see the Catalogue.

Five degrees are offered: A. B., B. S., Ph. B., B. L., and B. D. A thesis is required for graduation in any degree.

Both elementary and advanced courses are offered in nearly all studies.

Students applying for admission are assigned to the courses or schools for which they are qualified, regardless of class or attainments in other subjects.

Entrance examinations Sept. 1. and Jan. 1., each year.

## EXPENSES AND SESSIONS.

No more than \$150 is needed for strictly necessary expenses. This does not include travelling expenses, clothing or society fees, but everything else necessary for attendance during one year. Two hundred dollars is a moderate allowance and three hundred dollars is amply liberal.

Needy students may give note for tuition, thus reducing the necessary immediate outlay by \$50 per year. Board ranges from \$7 to \$12 per month, including lodgings.

The year opens first Thursday in September and closes second Thursday in June. The Christmas vacation, ending December 31, divides the year into two nearly equal terms.

Correspondence solicited. Address,

# EVERY TEACHER

## SHOULD LEARN

# Phonography or Phonetic Shorthand

### Because it saves time, labor, strength and money.

Had this art been known forty years ago, it would have saved me twenty years of hard labor.—*Hon. Thomas H. Benton.*

For five years I have depended entirely upon Phonography for the transmission of my thoughts to my fellowmen; and if the art were to perish to-day, I could not summon resolution enough to make any progress in the old track.—*C. Edwards Lester, N. Y.*

### Because it is of great and rapidly growing importance to the young, to whom every teacher should be able to impart it.

There is no reason why the rising generation should not be taught Phonography.—*Sir Wm. Armstrong, Ex-President of the British Association.*

The business of the world would be facilitated and the power of labor increased if every child were taught Phonography.—*Cincinnati Commercial Gazette.*

I deem Phonography, when thoroughly learned, an invaluable adjunct to education; and one which, when acquired in youth, would not be parted with in manhood for thousands of dollars.—*Hon. I. W. Stone.*

I have no hesitation in expressing the opinion that Phonography would be a subject of instruction in elementary schools likely to be of much practical value to the children in after life.—*The Lord Bishop of Manchester, Eng.*

I have always regarded Phonography as an important addition to the educational branches taught in our schools, and I sincerely hope every young man in our community may have an opportunity of learning it.—*James S. Wallace, Editor of the Philadelphia Daily Sun.*

I would have my son taught shorthand. I do not mean in that perfection to copy a speech from the mouth of a ready speaker, but to be able to write it readily for his own private business. Believe me, sir, it is as useful a knack as any man of business or scholar can be master of. I have found the want of it myself and seen the advantage of it in others.—*Locke.*

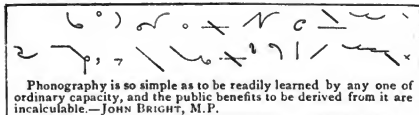

### Because it is invaluable to the student.

I deem Phonography far more valuable for business purposes, for journalizing, for correspondence, and for private and rapid writing down of one's thoughts, so that none may be lost, than for mere reporting.—*Dr. Stone.*

An important use of Shorthand is in writing down one's own thoughts—a practice which is indispensable to the student's improvement. Jean Paul says: "Nothing can exceed the importance of writing. A man may read for thirty years with less profit to himself than if he had written for half that period.—*Stolse.*

I use Phonography for reporting the lectures of the professors, while the students look on with wonder—possibly with envy. Most of the students here, save the half dozen who practice the art, would consider no price too great to possess themselves of so admirable a means of securing information.—*E. E. Bradbury, Amherst College.*

### Because it is a scientific method of representing speech and gives the student a new view-point from which to regard the nature and genius of his mother-tongue.

Send for alphabet and illustrations, for catalogue of text-books, by Benj. Pitman and Jerome P. Howard, and specimen copy of the *Phonographic Magazine*, FREE.

The collegiate work of the University is divided into five schools, as follows:

The School of Arts and Philosophy consists of those departments represented in the courses leading to the degrees of Bachelor of Arts and Bachelor of Philosophy.

The School of Science consists of those departments represented in the course leading to the degree of Bachelor of Science.

The School of Engineering consists of those departments represented in the courses leading to the degrees of Civil Engineer, Mechanical Engineer, Engineer of Mines, and the Short Course in Mining.

The School of Agriculture and Veterinary Medicine consists of those departments represented in the courses leading to the degrees of Bachelor of Agriculture and Doctor of Veterinary Medicine, and the Short Course in Agriculture.

The School of Pharmacy consists of those departments represented in the course leading to the degree of Graduate in Pharmacy.

Much of the work in science is performed in laboratories by the students themselves. To promote this, which is now universally recognized as the true method of teaching science, the Trustees and Faculty have been at great expense and pains to provide the best possible facilities. The number of laboratories now in operation is nine—the physical, the chemical, the physiological, the mechanical, electrical, the mining and assay, the botanical, the pharmaceutical, and that for agricultural chemistry. These are supplied with extensive and well selected apparatus, to which frequent and important additions are being made, and afford the means not only for illustration and practice, but also for original investigation.

A Catalogue will be sent to any one desiring further information.

The Cincinnati Wesleyan College offers to young women the advantages of Higher Education, under the personal oversight and care of the President and Vice-President, which can be as nearly parental in quality as possible. Easily accessible from the College are Music Hall, Public Libraries, Art Galleries, Art Museums, and kindred institutions. These are important factors of education, and not attainable except in great cities. The old notion that a hermitage or a cloister was the best place to educate and prepare for the active duties of life is wisely exploded. Young women must not be taken out of the world to learn to do its great work, but only preserved in the world and developed for its great activities.

# Millersville State Normal School,

Millersville, Lancaster Co., Pa.

Established 1855. Recognized as the First State Normal School in Pennsylvania, 1859.

ELIPHALET ORAM LYTE, A. M., PH. D., PRINCIPAL.

The Millersville State Normal School is the pioneer of Normal Schools in Pennsylvania. Established in 1855, two years before the Normal School law was passed, this School determined the general nature of the Normal School system of the State, and became the model for many successful institutions throughout the country. It is a source of pride to its thousands of friends that it maintains its rank among the great training schools of the United States. The support given to its younger graduates by its older students, the regard in which its diploma is held in other States as well as in Pennsylvania, and the almost invariable success of the members of its Alumni in every field of intellectual labor, are recommendations of the School that thinking young men and women who are seeking an education, are not slow to appreciate.

The financial standing of the School enables the management to place the various departments in charge of *experienced instructors*, with special aptitude for their work and in full sympathy with the most approved methods of teaching. Every department is fully supplied with apparatus, and is well equipped in every respect.

The crowning work of this Institution is its *professional department*. Every effort is put forth to make our students skilled teachers. In the Intermediate and Junior years, the students are organized into "Methods" classes, to study the mind, the principles and methods of teaching, and the best ways of managing schools. In the Senior year psychology and pedagogics are among the most prominent studies. The *Model School* is one of the leading schools of the kind in the United States. It is in charge of skilled teachers of wide experience who have made the science and art of teaching a specialty.

A large room has been supplied with the necessary work-benches and tools for a course in woodwork. The classes of this department are in charge of experienced teachers and skilled mechanics.

In addition to the libraries of the flourishing literary societies, which contain about 6,000 volumes, a large and pleasant room has been set apart for reading room and reference library. It is supplied with many valuable books of reference and a large number of the leading magazines and reviews, newspapers, religious periodicals, educational journals, etc.

THE MILLERSVILLE STATE NORMAL SCHOOL is located in a quiet village, four miles from Lancaster City, in one of the most beautiful and healthful parts of the "Garden of Pennsylvania."

The Normal School buildings are the largest and most convenient buildings of the kind in the State. The chapel will seat 1,200 persons; the recitation rooms are large and commodious; and the students' rooms are neatly furnished and well heated and lighted. According to the State Report for 1889, the value of the property belonging to the Millersville State Normal School is over a quarter of a million of dollars—in exact figures, \$257,262.00.

The grounds surrounding the Normal School are large, beautiful and attractive, affording abundant shade and good opportunities for recreation and exercise.

Full information concerning the School can be obtained from the Principal. Catalogues sent free on application.

# Memphis Conference FEMALE INSTITUTE, JACKSON, TENN.

A. W. JONES, D. D., PRESIDENT.

FALL SESSION Begins the first Wednesday in September.

SPRING SESSION Begins the fourth Monday in January, 1890.

COMMENCEMENT DAY—The second Wednesday in June.

The Institute was chartered in 1843, and opened for pupils in 1844.

The first graduation was in 1846. Since that time 586 young ladies have received the degrees of the institution, and thousands have been educated without attaining graduation.

The school has always been supplied with a full and competent Faculty according to demands, and all the teachers are highly accomplished and fully abreast with the times.

The course of study is thorough and extensive, embracing the most improved text books on the various subjects in the several departments.

The Boarding Department is under the charge of the President and his wife, assisted by Mrs. Alice Ingram, as Matron. The rooms and dining hall of the new building are finished.

Every possible attention will be given to the comfort, health and protection of boarding pupils.

To stimulate and encourage, Class Certificates are given for promotion, Golden Medals offered for Punctuality, Deportment and Scholarship in different classes and departments, and Roll of Honor adopted for highest excellence and attainments.

## BUILDINGS AND PREMISES.

Cannot well be depicted on paper. They must be seen in order to be fully appreciated.

The Main Building (four stories) contains President's office, parlors, family departments, kitchens, wash-room, clothes-room, store rooms, pantry, etc., with seventeen boarding-rooms, carpeted and provided with suitable furniture.

East Wing (three stories) contains a large and beautiful dining hall and twelve boarding rooms.

West Wing (three stories) contains elegant chapel, seating over 400; Music Department, with ten separate rooms; Art Department, 40x20; Reading Room, connected with Library of 4,000 volumes, and five recitation rooms supplied with apparatus for illustration and experiment.

The buildings are all of brick, connected by closed halls, so that there is no exposure for any purpose, and located on a separate block of five acres.

The premises include a large front yard, with tastefully arranged and well shaded walks, flower and vegetable gardens, lots, etc. Scenery in all directions pleasing.

## DEPARTMENTS.

I. THE COMMON ENGLISH, which has been maintained to meet a continued need on the part of many of the patrons of the University.

II. THE NORMAL, which has a course of study extending over four years, beginning with Latin and Algebra.

III. THE COLLEGE PREPARATORY, which has a course of study extending over three years, beginning with Latin and Algebra, and requiring two years of Greek.

IV. THE COLLEGE, which has a four years' course of study additional to that provided in the College Preparatory Course.

V. THEOLOGICAL. Thus far the instruction in this Department has been fragmentary, but plans are now being devised for the erection of an appropriate building for a Theological Seminary, and the enlarging of the Faculty, so as to provide a course of study covering three years.

VI. DEPARTMENT OF MUSIC, with an extended course in both instrumental music and voice culture. There are over 100 pupils in this Department. In addition, vocal music is taught throughout all the courses of study. The Mozart Society studies and renders the classics in music.

VII. INDUSTRIAL. Printing and Carpentry are taught to classes of young men. The young women are instructed in Nursing, Cooking and Sewing.

## GROUNDS AND BUILDINGS.

The University has a campus of thirty acres, with buildings and other appliances for its educational work which have cost \$250,000. Jubilee Hall, erected by the Jubilee Singers, Livingstone Hall, provided mainly by the munificence of Mrs. Valeria G. Stone, and the Gymnasium and Mechanical Laboratory, are the principal buildings.

## ATTENDANCE.

The present number of students is nearly 500. Twenty States are represented.

## EXPENSES.

The cost of room, board and tuition is \$12 per calendar month. Instruction in Instrumental Music is fifty cents per lesson, including use of instrument for practice.

For further information address either of the undersigned.

Eminent Lecturers are employed every season. The Scientific Classes have lectures in the Chemical and Physical Laboratories of Vanderbilt University, with ample experiments by the Professors.

The continued growth of the Nashville College for Young Ladies is shown in the following condensed statement of its patronage from year to year:

1881, 304; 1882, 147; 1883, 203; 1884, 209; 1885, 243; 1886, 250; 1887, 284; 1888, 304; 1889, 326.

A moderate sum will provide all the necessary expenses for a year's board and tuition in full English and Classical departments, in Calisthenics, Chorus Singing, use of Libraries and Lecture Courses of the College. The only fully equipped Gymnasium for women in the city.

The Tenth Annual Session began Sept. 2, 1889, with every prospect of enlarged success.

Should you desire further information, **SEND FOR OUR LARGE, HANDSOME CATALOGUE** of 46 pages, giving all particulars in reference to the institution, including estimates of expenses for Music, Art and Modern Languages.

**With an Ample Corps of Assistants.**

**Established in 1839.**

Established in 1839 by the late Bishop Meade, this was one of several schools for boys in the Atlantic States whose foundation was directly prompted by the celebrated seminary of Dr. Muhlenburg, at Flushing, L. I., and from its beginning it has been under diocesan auspices. The avowed aim in its establishment was "to provide an institution of learning where youth could be thoroughly educated upon Christian principles, and where their morals and habits could be preserved from the dangers of evil associations." This object the Principal endeavors to keep constantly in view.

Students are prepared for the University of Virginia, or institutions of similar grade, for college, or for immediate entrance upon the duties of life. The course taught embraces adequate preparation for the senior classes in the academic schools of the University, and the method of teaching is, as far as practicable, adapted to that pursued at that institution.

In the county of Fairfax, three miles west of Alexandria, the situation is singularly healthy at all seasons, and from its elevation commands a magnificent view of the Potomac, the cities of Alexandria, Washington and Georgetown, and the surrounding country for many miles. The school tract comprises nearly a hundred acres. Ample play-grounds and an extensive skating pond afford every opportunity on the premises for out-door recreation, while a spacious gymnasium, suitably equipped, and a play-room supply abundant facilities for exercise in inclement weather.

The present Principals have been identified with the School since 1870, and under them it has attained its greatest prosperity, averaging since 1880 nearly one hundred pupils annually, and having declined many applications for want of room. The Principal is a Master of Arts of the Virginia University. The Associate Principal, an eminent graduate of West Point, has charge of the mathematics, while the classical department is headed by Mr. James W. Kern, late assistant instructor in ancient languages at the University of Virginia. The other masters are also University men of approved scholarship. The boys, masters and ladies of the establishment lodge virtually under the same roof and eat at the same table.

The Session begins on the fourth Wednesday of September, and, except a recess of ten days at Christmas, continues without intermission for nine months. Students are received whenever there is a vacancy.

A Catalogue with particulars may be had of the Principal at Alexandria, Va.

This Institution embraces nineteen schools, with one or more instructors in each. The schools are divided into two classes, *Academical* and *Professional*. The *Academical schools* are divided into two departments, a *Literary* and a *Scientific*.

In the *Literary Department* are embraced the schools of Latin, Greek, Modern Languages, Historical Science, English and Moral Philosophy.

In the *Scientific Department* are embraced the schools of Mathematics, Natural Philosophy, Chemistry, Analytical Chemistry, Natural History and Geology, Biology and Agriculture, and Practical Astronomy.

The *Professional Schools* are divided into five departments, namely Law, Medical, Pharmaceutical, Engineering and Agricultural.

In the *Law Department* are embraced the school of Common and Statute Law, and the school of Constitutional and International Law and Equity.

In the *Medical Department* are embraced the schools of Chemistry, Anatomy and Materia Medica, Physiology and Surgery, and Medical Jurisprudence, Obstetrics and Practice of Medicine.

In the *Department of Pharmacy* are embraced the schools of General Chemistry, Analytical and Pharmaceutical Chemistry, Botany and Materia Medica.

In the *Engineering Department* are embraced the schools of Engineering, Mathematics, Natural Philosophy, Chemistry, Analytical Chemistry, and Geology and Mineralogy.

In the *Agricultural Department* are embraced the schools of Biology and Agriculture, Natural Philosophy, Chemistry, Analytical and Agricultural Chemistry, Natural History and Geology, and Mathematics applied to Engineering.

For greater thoroughness of instruction, there are admirably equipped laboratories connected with the schools of Natural Philosophy, Chemistry and Biology, Museums containing collections illustrating the subjects of Chemistry, Geology, Mineralogy, Zoology and Botany, and an Astronomical Observatory.

The situation of the University is elevated and healthful. For catalogue or further particulars, address

# SEARCY COLLEGE,

## SEARCY, ARK.

MALE AND FEMALE.

ESTABLISHED 1883.

### Character of Institution.

Searcy College is a chartered Institution for the higher education of young men and young ladies. It was established in 1883, and was soon recognized as a school of a high order. No teacher is employed who is not progressive and scholarly. It is a notable fact that every graduate of this Institution has, since graduation, taught and given splendid satisfaction both as teacher and disciplinarian. Two of the graduates have been called to chair (one as teacher of Natural Sciences and the other of Mathematics) in a leading Kentucky College. The Faculty is selected from recognized colleges and universities. Most of the instructors have supplemented their college or university course by thorough normal trainings and hence, in their teaching, are prepared to use the most approved methods.

### Location.

The Searcy Male and Female College is situated in Searcy, a beautiful town of some 2,500 inhabitants. Searcy is in immediate railroad and telegraphic connection with the entire surrounding country. It is within two hours' ride of the State Capital. No town in the State can boast of a more refined and moral society; church and Sunday-school facilities excellent. No liquor is sold in White county.

Searcy is one of the most *healthful localities in the South*. It is within one hour's ride of Griffin and Armstrong Springs.

### ADVANTAGES:

**LAKE CITY.**—The seat of the College, is a town of 2,000 inhabitants, is situated on the F. C. & P. Co., and G. S. & F. R. R., fifty-nine miles from Jacksonville. The location is beautiful and the town well known for its healthfulness.

**BUILDINGS.**—There are five handsome and commodious buildings on a large campus nearly surrounded by oak and magnolia groves.

**COLLEGE FARM AND EXPERIMENT STATION.**—The Government Experiment Station is located on the College farm, a portion of which is worked by the college exclusively as a fruit and vegetable garden to cheapen expenses of the students.

**LIBRARY AND READING ROOM.**—Cadets have the free use of a fine new library containing several thousand books and pamphlets; also a reading-room supplied with all the leading dailies and weeklies of Florida, besides scores of educational, scientific, religious and agricultural periodicals.

**MUSEUM AND LABORATORY.**—The college possesses a large and costly Museum of Natural History and Mineralogy, consisting of 60,000 specimens of minerals, fossils, animals, woods and plants, thus furnishing ample means, of illustrating instruction in every branch of natural science.

The **LABORATORY**—has been transferred to a new and special building recently erected—is the finest in the State, and equal to any in the South. The greater part of the instruction is in practical laboratory work.

**DISCIPLINE.**—As far as practicable the U. S. Military Academy Rules at West Point have been adopted. The Military discipline, which premeates every department, is firm but not severe, and is uniform and impartial.

**MILITARY.**—Cadets are required to wear the uniforms of our country and drill with guns an hour each day, with dress parade occasionally.

**EXPENSES.**—Tuition is free to all citizens of Florida. Non-residents are charged at the rate of \$20 per session. Rooms furnished exclusive of bedding, FREE. Board in club with President and Commandant is about \$8 per month.

**MANUAL TRAINING.**—A large workshop is fully equipped so that each student has a bench and set of tools and materials for work under the instruction of a skilled mechanical engineer.

# ALMIRA COLLEGE,

## Greenville, Ill.

A Boarding School for Young Ladies and  
a Day School for both Sexes.

The college building is an elegant brick structure, erected expressly for school purposes. The dining room, and the sleeping-rooms on the second floor, have been thoroughly renovated the past summer, and to the six pianos heretofore in use, a seventh—a new grand square Hallet & Davis for concert purposes—has been added.

The classical and scientific courses of study, and the departments of music, art, oratory, teachers' course, business, shorthand and typewriting, are in charge of teachers of experience in teaching in their respective departments.

The Business Department, added at the beginning of school last fall, is in charge of a skillful and experienced teacher, an artist penman and practical accountant, and already the department is well patronized. The facilities here offered for obtaining a good business education, including actual business practice, are superior to those of many business colleges, and are equal in all respects to those afforded by the best.

Almira College offers exceptional advantages to those seeking a first-class school in which to educate their children.

Parents desiring to send their boys and girls away to school, to break up associations and surroundings which interfere with their studies, are invited to communicate with the undersigned before deciding where to send them.

Besides Classical and Scientific courses, there is special Normal instruction for teachers, regular study of the Bible and exercises in Rhetoricals. There is excellent opportunity too for the study of Penmanship and Book-keeping.

From one hundred and fifty to two hundred of our students taught in the public schools the past year. County Superintendents are repeatedly sending to us for teachers, sometimes beyond our ability to supply them.

The College has nine buildings, a library of four thousand volumes, a fine Cabinet and a good working Laboratory.

All young people of good character are welcome, white and colored. Attendance four hundred.

Expenses are moderate. Tuition, room, fuel and board \$2 to \$3 a week. There is also some opportunity for lessening the expenses by manual labor.

Berea is pleasantly located at the foothills of the Cumberland Mountains and on the Kentucky Central Railway.

MRS. M. G. STONE,  
Directress of Boarding-house.

MISS LULA BELL,  
Superintendent of Dining Hall.

No. of boarders, 60.

No. of pupils, 110.

Established in 1880, by the present Proprietor and President, Rev. L. M. Stone. From a small beginning the College has grown in public favor and patronage until it stands among the very best in the South. The buildings and furniture are now valued at ten thousand dollars. The location is in a beautiful, quiet little town, on the Mobile and Ohio railroad, thirty-second degree of latitude, and is noted far and wide for its healthfulness. Moral, social and religious influences are of a high order—just such as young girls and ladies need while separated from home and at a boarding school.

The curriculum is broad and varied, embracing a full English school, Latin, French and Natural Sciences. The Music department is in charge of a first-class directress, a student of Boston Conservatory. Good instruments are kept in this department. The Art hall is presided over by a superior teacher, and great success has marked the history of this department.

Economy and Industry are "watchwords" with us. Thoroughness is a basal principle.

Charges are low. Accommodations are satisfactory. Board and tuition for nine months, \$35. Music, \$40. Art, \$35. All other branches free. Type-writing and dress-making taught.

Satisfaction guaranteed. A pleasant home for students in winter.

This Institution has a wide reputation as a College Preparatory for young men. Ladies' College. Grants degrees. Advantages of the highest order are offered in Music, Painting, Drawing, Elocution, and in Scientific and Commercial Courses.

The building cost over \$215,000, is free from debt, and is considered the finest edifice of its class in the United States. The school was opened in 1874, and has had unusual prosperity. It will accommodate nearly 200 boarders. The present year (1889-1890) is the ninth consecutive year in which students have been refused from lack of room.

While our patronage is chiefly from New Jersey, New York and Pennsylvania, we have had students from nearly every State in the Union—as also from various foreign countries. We have no primary department. In making application, please state age, and what branches of study have been pursued. Terms moderate. Send for Catalogue.

# UNIVERSITY OF NASHVILLE.

## PEABODY NORMAL COLLEGE,

### NASHVILLE, TENN.

The University of Nashville was founded in 1785. The Peabody Normal College was organized, practically as a department of the University, in 1875. The purpose of this institution is the education of young men and women for the higher positions in the public school service of the South. It furnishes the highest quality of academic instruction and offers a professional course of study in the history, science and art of teaching, superior to that given in any other institution in this country. The Peabody Normal College is, for teachers, what law schools and medical colleges are for lawyers and physicians. The most attractive field of labor for young men and women of scholarly tastes, is this new profession; and this College is a professional school of the highest type.

The course of instruction leads, in succession, to the degree of Licentiate of Instruction, Bachelor of Arts and Master of Arts.

Tuition, the use of text books, and the use of a large and choice library are free to all white youth of proper qualifications who purpose entering the profession of teaching.

There are 114 Peabody Scholarships of \$200 each, for two years, distributed among the States as follows: Alabama, 13; Arkansas, 10; Georgia, 14; Louisiana, 8; North Carolina, 14; South Carolina, 10; Tennessee, 14; Texas, 9; Virginia, 14; West Virginia, 8. Applications for these Scholarships must be made to the Superintendents of Public Instruction of the several States.

A student's necessary expenses for board, room, lights and fuel, range from \$15 to \$30 a month. The total expense for the Collegiate year will not exceed \$200, and may by economy be reduced to \$150. It is hoped that arrangements may be perfected whereby the cost of maintenance to non-scholarship students may be reduced to \$125.

Special features of this College are a Gymnasium, in charge of accomplished instructors; a Library of more than ten thousand volumes; a Reading-room supplied with all the English and American Magazines and periodicals; a Chemical Laboratory unusually complete in facilities for study and experiment; a Biological Laboratory supplied with the best instruments for research; a Geological Museum illustrating the marvels of this science.

The Faculty consists of eighteen Professors, Instructors and Lecturers. Special courses of instruction are given in Civics, American History, Ethics and Mineralogy by some of the most competent men in the country.

A model school building is in process of construction at a cost of \$12,000. In this school will be illustrated, by experts, the most approved methods of primary instruction.

The College is supported by the State Board of Education and the Peabody Board of Trust, and occupies the beautiful buildings and grounds of the University of Nashville. It is more than probable that the Peabody Board will permanently endow this College with whatever part of its \$2,000,000 of fund, that may be necessary to make this school the best of its kind in the world.

The enrollment has more than doubled in two years, the present enrollment being three hundred and sixty.

The College year opens the first Wednesday in October and closes the last Wednesday in May; but students who can enter classes already in progress will be received during the year.

For Catalogues or special information, address the Secretary.

# Constitutional and Political History

OF THE

## United States of America.

**BY DR. H. VON HOLST.**

[From the International Review.]

The work is not so flattering to our national vanity as De Tocqueville's "Democracy in America," but it is much more profound and thorough, and in like proportion more valuable. It is the most valuable work on the subject which has yet been written.

[From the New York Herald.]

We feel that we have done but scant justice to the great quantity of valuable thoughts and information which this thorough, original, and suggestive book contains.

[From the Central Law Journal.]

No student of the American political system can afford to be unacquainted with it. It is rich in historic materials, and abounds with profound reflections.

[From the New Orleans Picayune.]

We doubt if any writer, native here, could have given to his countrymen so clear, so impartial, so severely judicious an exposition of the subject treated.

## A. B. Dick Company,

152-154 Lake St., Chicago.

32 Liberty St., N. Y.

Especially Adapted to School Work. Endorsed by over 300 School Superintendents, Schools and Colleges.

The following are a few testimonials taken at random from our files:

*A. B. Dick Company, Chicago.*

ST. PAUL, MINN.

Dear Sirs: Replying to your favor I can only reiterate what I said in my first testimonial with this addition, that the longer we use the Mimeograph the more apparent are its merits. We use it for so many purposes that it has become indispensable. Neither can it be said that the invention is good for a specific purpose of work only, for, whether it be in producing manifold copies of common writing or figures and characters of every kind so impossible to find in the best appointed job printing offices, or musical notes, signs and characters—"it does all things well."

Very truly,

OTTO DREIER, Secy.

*A. B. Dick Company, Chicago.*

JACKSON, MICH.

Dear Sirs: The Edison Mimeograph is a great success. It is the most valuable piece of furniture I have in my office. I have used it since September last. I enclose sample of work.

Yours truly,

C. N. KENDALL, Supt.

*A. B. Dick Company, Chicago.*

CLAYTON, N. Y.

Dear Sirs: In reply to your inquiry I enclose sample of work, and it gives me pleasure to state that I have used the Edison Mimeograph almost daily since November last, and always to my entire satisfaction. I would not know how to do my school work without one after having used it as I have. Every teacher should possess one.

Yours truly,

C. A. SHAYER, Supt.

*A. B. Dick Company, Chicago.*

MONTEREY, CAL.

Dear Sirs: I desire to state that the Edison Mimeograph is the most complete and perfect machine for duplicating. I can produce the most complicated diagrams with ease in four or five colors. For circular and letter purposes the Mimeograph is simply *perfection completed*; a school boy of ten can use it easily. I have used the "Cyclostyle" and "Auto-copyist," but they are comparative failures.

Respectfully,

T. H. BURGOYNE, Prin.

*A. B. Dick Company, Chicago.*

PLYMOUTH, MICH.

Dear Sirs: I have used the Edison Mimeograph nearly one year. Have given it some very severe tests but it has never failed me.

Very truly yours,

A. C. BROWER, Supt. Schools.

*A. B. Dick Company, Chicago.*

KINGMAN, KAS.

Dear Sirs: I have used the Edison Mimeograph for four months and find it of great service in outlining work for my teachers. I could not keep house without it. I enclose samples of my work.

Respectfully,

A. GRIDLEY, Jr., Supt.

*A. B. Dick Company, Chicago.*

ST. CLOUD, MINN.

Dear Sirs: We have used the Edison Mimeograph for the past three months with great success and can with confidence recommend it as one of the best inventions of the age.

Yours truly,

JOHN McELROY, Supt.

## NEW SERIES OF EDUCATIONAL MAPS.

American maps, made by Americans, for use in American schools.

They are the handsomest and most trustworthy school maps in the market.

The most complete, handsome and substantial school map ever published.

These maps are distinguished by several new and useful features, being beautifully bold in outline, free from unimportant names, and so distinct that no difficulty is experienced in reading any name. They show the latest geographical discoveries and political changes in every part of the world. They are handsomely and artistically colored, so that the political boundaries can be readily distinguished at a distance. The names of towns are engraved in clear, bold type, and are also indicated by large black dots, so that the series can, if preferred, be used for "outline" maps. The lengths of the principal rivers and the altitudes of the highest mountains are engraved on the maps.

The maps are mounted on heavy cloth, with rollers, and varnished. They are designed to be used in connection with any text-book on geography. No "key" is required. Any map sold separately. Any map can be sent by mail, postage prepaid.

From many warm commendations of these maps, sent us by prominent educators, we select the following:

I consider Rand, McNally & Co.'s Educational Maps superior to any maps now in our schools. Being authentic and correct to date, they possess all the requisites of complete maps.

N. J. MORRISON, D. D., President Drury College, Springfield, Mo.

Rand, McNally & Co.'s Educational Maps are admirably adapted to school and college work. They are fresh, distinctly outlined, well engraved, good type, up to date, accurate, and, in every respect, such maps as should be placed in every school-house.

J. M. GREENWOOD, Superintendent of Instruction, Kansas City, Mo.

We are highly pleased with Rand, McNally & Co.'s New Educational Maps. Nothing seems to have been overlooked in compiling these maps from the latest and most authentic sources. The utmost pains have been taken to aid the pupil in fixing the relative position of the Grand Divisions. Thus, the map of Europe, shows a large part of Asia and Africa; and it is set low enough in the plate to show the position of the North pole. Many wall maps now in use are cut so closely as to isolate each Grand Division.

Another marked feature is the attention given to the comparative latitude and longitude of cities and counties in different continents placed on their respective meridians and parallels. The number of miles in a degree on a given parallel is placed beside the number of the parallel.

Much artistic skill and taste are shown in the distribution of colors and shades. Mountains are not so spread as to obscure the names of cities, lakes and peaks. The sources of the Rhine and the Danube even are easily seen; and the Swiss and Italian lakes with their names are not dimmed and lost in the mountain shades, but may be seen at a distance of several feet.

EDWIN C. HEWITT, LL. D., President Illinois State Normal University.

## **Original and Fascinating Educational Publications.**

School-room Drudgery and Antiquated Methods Supplanted by Intelligent and Rational Means of Instruction.

### **Yaggy's Geographical Study.**

Comprising a complete outfit of devices for illustrating Astronomical Geography—a series of beautiful object-lesson plates on Physical Geography—a collection of maps of superior excellence—a geological chart, and the finest relief map of the United States that has ever been published.

### **Yaggy's Anatomical Study.**

A complete representation of the structure and organs of the human body. In accuracy and life-likeness of representation it is without a rival, and it is used in ten times as many schools as all other anatomical studies combined.

### **Paragon School Maps.**

These include the freshest, brightest and most reliable maps in the market. Published in a complete set of eight large maps, or in partial set of any four selected maps, on spring rollers, in "Peerless" revolving cylinder case, or sold as single maps, mounted on plain roller, unencased, or on spring roller in our beautiful "Acme" case.

### **Pollard's Synthetic Method of Reading and Spelling.**

This system of elementary instruction is rapidly taking the place of the old methods, and is producing a radical and much-needed reform at the very foundation of the child's education.

In the publication of these new and practical school supplies, the Western Publishing house has set its face squarely against old educational methods and ideas. The popular approbation accorded its productions has confirmed the purpose of the house to make a specialty of such school books and appliances as minister to the wants of progressive teachers, and to the spirit and methods of the "New Education."

Correspondence respectfully invited. Live, intelligent agents wanted.

## Recent and Highly Successful Publications in School Text Books.

In the Eaton & Bradbury Mathematical Series.

**THE ACADEMIC ALGEBRA**, by Wm. F. Bradbury, Head Master of the Public Latin School, Cambridge, Mass., and Grenville C. Emery, Master and Instructor in Mathematics in the Public Latin School of the city of Boston. 412 pages. Price \$1.08.

This work, though issued late in the summer of 1889, has been received with remarkable favor, having been already introduced into many of the leading High Schools, Academies and Preparatory Schools, among which are the Public Latin and English High Schools of Boston and Cambridge, Mass., Roxbury Latin School, Massachusetts, Public High Schools, cities of Lowell, Brockton, Gloucester, towns of Andover, Lancaster, Mass., Phillips Academy, Andover, Mass., State Normal School, Indiana, Pa., Nichols Latin School, Lewis, Me., etc.

The publishers believe that this work will be found to have no superior, either as a text-book for progressive and thorough training for pupils who complete their studies in the High School or Academy, or for those preparing for the higher institutions. Every teacher desiring a work containing the latest and most approved presentation of the subject will be interested to see this new work.

At the end of the book are the examination questions for admission to Harvard and other leading colleges from 1884 to 1889 inclusive. A sample copy will be sent for examination on receipt of 50 cents.

**ALGEBRA EXAMINATION PAPERS** for admission to leading New England Colleges, and to the Massachusetts Institute of Technology, from 1878 to 1889 inclusive. Edited by Wm. F. Bradbury.

This work will be found of special value for use in classes preparing for the higher institutions. Price 30 cents. Sent by mail on receipt of price.

Attention is called to the **EATON AND BRADBURY'S ARITHMETICS**.

**NEW ELEMENTARY AND PRACTICAL**.—A complete series in two books. Examination copies sent on receipt of for Elementary, 25 cents; Practical, 40 cents.

**MESERVY'S TEXT-BOOKS IN BOOK-KEEPING.**

**SINGLE ENTRY** for Grammar Schools. Price 60 cents. Blanks 50 cts. per set.

**SINGLE AND DOUBLE ENTRY** for High Schools and Academies. Price 80 cents. Blanks 80 cents per set.

**DOUBLE ENTRY**. When only this part is wanted. Price 70 cents. Blanks 60 cents per set.

Sent for Examination Single Entry, 30 cents; Single and Double Entry, 50 cents; Double Entry, 40 cts. These are clear and practical Manuals, easily taught and thoroughly adapted to business methods. Book-keeping can be mastered in the public and other schools in a short time, by the use of Meservy's text-books. They are now in use in a large number of the best and most successful schools in all parts of the Union. In New England alone they are formally adopted in every incorporated city but two, and in more than six hundred and fifty towns.

**MESERVY'S POLITICAL ECONOMY**. Price 60 cents; for Examination, 30 cents.

It has been the aim of the author to make this important subject clear and intelligible to the pupil of the High School or advanced Grammar grade. Heretofore Political Economy has been studied almost entirely in the Colleges and Universities, but Meservy's admirable treatment of the subject is popularizing it and bringing it into "the people's colleges."

**STONE'S HISTORY OF ENGLAND**. For High Schools or the advanced Grammar grade. Price 85 cents. For Examination, 50 cents

Unlike many similar works, this book is not wholly devoted to wars and the struggles for power, but it describes the manners and habits of the people at different periods and the progressive development of the nation. It throws much light on United States History and is a great aid to an understanding of English Literature. Some clear and admirable maps add greatly to its value. The book is very successful as a supplementary reader.

## **A FEW FACTS**

**WHICH ARE OF INTEREST TO EVERYONE WHO BUYS  
SUPPLIES AND WISHES TO SAVE MONEY.**

For nearly fifteen years we have shipped groceries and other household goods to families and institutions in the country at lowest St. Louis wholesale prices, and we make a specialty of PURCHASING such articles which are not kept for sale in an ordinary country store. We make no extra charges for drayage or packing.

The saving on a bill of goods bought of us is so great, that the small amount paid for freight really "cuts no figure."

A trial will convince you that we can do just what we promise:

### **SAVE YOU MONEY.**

And that we will fill an order for \$1 worth of goods as promptly and cheerfully as one of \$50.

Send for our price list which contains full explanations, and is sent FREE to any address.

# Standard Educational Series,

Published by the

## Standard School Book Co.,

### ST. LOUIS, MO.,

**Standard Readers. Standard Spellers.**  
**Standard Arithmetic,**

**These Books are New, Fresh, Unique.**

#### THE STANDARD READERS

Were prepared by distinguished educators, the selections are from the best authors and the books are full of suggestive and interesting matter. We name a few points of superiority:

1. The phonic drills and pictures combine object teaching with phonetics
2. The phonetic exercises begun in the First Reader grow into a complete system of Vocal training.
3. The elocutionary drills, judiciously introduced throughout the books, are simply practicable, easily taught and thoroughly effective.
4. The biographical sketches and portraits of prominent Americans are a marked and invaluable educational feature.
5. The selections awaken interest and excite pleasure by the beauty of their diction and the loftiness of the thought expressed, and are models in artistic finish. The descriptions are thrilling and picturesque.

#### THE STANDARD PRONOUNCING SPELLER

Is a companion book for the Readers, and may be fully styled "A Dictionary to the Standard Readers." This speller has more strong points than any other speller published.

#### THE STANDARD ARITHMETICS

Are new books, beautiful, practical, thoroughly graded and especially adapted to the wants of the age. Among their many excellent points we name the following:

1. Progressive, Oral and Written Drill.
2. Inductive Exercises and Abstract Numbers
3. Phraseology, Analysis, Definitions, Rules and Explanations are the same in both books.
4. The variety and number of oral and written problems.
5. Simplicity and thoroughness are on every page.

# ENGINEERING NEWS

Is the PIONEER weekly Engineering Journal  
of America. It has

## THE LARGEST CIRCULATION

Of any Engineering or Railroad Periodical Published,

AND IS

### The Best Advertising Medium.

Being not only **the leading journal** of its kind **in America**, but also **the world**, manufacturers of, or dealers in Machinery, Apparatus, or Supplies used by Civil, Mechanical, Sanitary, Hydraulic or other Engineers, Contractors for Railways, Water-Works, Harbor Improvements or other Public Works; Railway Companies, Water-Works Companies, City Engineers, Manufacturers, Inventors, College Professors, and others interested in general Engineering subjects, cannot afford to allow a single issue to be printed and distributed that does not contain their advertisement.

As a matter of fact, this one journal **covers the Engineering field** so thoroughly that the American Engineering interest which cannot be reached through it, cannot be reached by **any** engineering paper, and so far as the United States, Canada, etc., are concerned, there is **absolutely no necessity** to advertise in any other engineering or railway journal, and **no additional benefit** can be derived from so doing.

Business men who have anything to sell which is used by the above classes will find that through no other medium can its members be reached so **thoroughly** or so **cheaply** as through the columns of ENGINEERING NEWS.

Evans Book Company,  
American Teachers' Bureau.  
American College and Public School Directory,  
C. H. Evans & Co.,

We are located at 311 North Eleventh Street, in the heart of the growing business part of the City. We are just half way between the Post Office and Exposition Building, between Olive and Locust streets, on the street which runs directly north from the Union Depot, and in the same Block with the Baptist, Methodist and Presbyterian book stores.

The AMERICAN TEACHERS' BUREAU, now in its fourteenth year, is the oldest west of New York, and is, we believe, the only one in the world that is housed in its own buildings. All communications in regard to Books, Stationery, Periodicals, etc., etc., should be addressed to the

**EVANS BOOK COMPANY.**

We have the largest assortment in the city, and can furnish you any book or periodical published anywhere in the world, and stationery, at very favorable rates. Do not buy until you correspond with us and get our prices.

We have some rooms set apart, and cordially invite our friends, when visiting the city, to leave valises, parcels, etc in our care, FREE OF CHARGE. We also have reception rooms, where you can arrange to meet friends at any time. Call and see us. Write for anything you want.

C. H. EVANS & CO.,  
ST. LOUIS, MO.

## A FEW OF OUR FRIENDS.

We are constantly forming the acquaintance of thousands of people who naturally enough would like to know how we stand with those who have tried us. To satisfy this reasonable curiosity we have asked expressions from a few of those whom we have served; and these we publish, assuring our readers that we could duplicate them from almost every State and Territory.

**Hon. John M. Gregory, U. S. Civil Service Commissioner, Washington, D. C.**—"Having known personally of your AGENCY, I cheerfully commend it to those seeking good teachers."

**Pres. W. W. Hooper, Holly Springs, Miss.**—"I am glad to say that you have rendered good and honest service to me in my efforts to secure competent teachers for Rust University."

**Pres. W. H. DeMotte, Xenia College, Xenia, Ohio.**—"The Teacher of Art secured last summer through your AGENCY is proving satisfactory in every respect."

**Supt. H. H. Keebler, Collinsville, Ill.**—"We now have two teachers whose services were secured through the AMERICAN TEACHERS' BUREAU, and both are giving entire satisfaction. We consider ourselves fortunate in having secured their services."

**Pres. J. H. Luther, Baylor College, Independence, Tex.**—"I have found the AMERICAN TEACHERS' BUREAU to be just what it professes to be. If trustees and teachers will keep the BUREAU informed as to what they need, they will find an efficient helper in Mr. Evans; a gentleman whose experience in the management of schools gives him every qualification for the work he proposes to do."

**Prin. Geo. K. Beechler, West Nottingham Academy, Coler, Md.**—"I have found Messrs. C. H. Evans and Co. reliable in statement, having excellent facilities for information, and prompt in communicating such advice as would aid in securing competent teachers."

**Pres. A. W. Lynch, Valden, Miss.**—"I take great pleasure in stating that I am well acquainted with the workings of the AMERICAN TEACHERS' BUREAU both in supplying places to teachers, and teachers with assistants."

Through the instrumentality of your BUREAU, I secured a most desirable position as Prin. of the Valden Male and Female Institute, and also through the efficiency of your AGENCY, in a short time after I had no one of my own staff, I secured the services of a well qualified assistant. I heartily commend this BUREAU to those teachers who are seeking better positions."

**Prin. W. H. Stewart, Shelbyville, Ky.**—"I have used your BUREAU and found it of great service in nominating teachers for the various departments of my school."

**Hon. Jno. S. Irwin, Supt. City Schools, Fort Wayne, Ind.**—"It gives me sincere pleasure to acknowledge our indebtedness to you in enabling us to secure a principal for one of our largest schools. The lady whom we engaged through your aid has proven herself admirably fitted for her position, and has not ceased to develop qualifications which must make her a valuable factor in our school corps. Under similar conditions I shall not fail to avail myself of your kind offices, with the feeling of certainty that we shall be benefited."

**Hon. R. L. Barfield, Sec'y Board of Education, Snow, Ga.**—"I have used C. H. Evans & Co.'s TEACHERS' BUREAU more than once as a means of procuring teachers for Snow Spring High School, and have each time found them very efficient and prompt in answering every request made of them."

**Hon. Frank A. Fitzpatrick, Supt. City Schools, Leavenworth, Kas.**—"I have found Messrs. C. H. Evans & Co. prompt in their dealings, honest and energetic—they have always carried out instructions to the letter."

**Hon. W. W. Jones, State Supt. of Public Instruction, Lincoln, Neb.**—"As Secretary of the State Normal Board, I had occasion to correspond with your AGENCY last summer with reference to vacancies in our State Normal School. It gives me pleasure to speak of the high class of applicants to whom you referred us. So far as my observation extends, the applicants were all you recommended them to be. I shall have no hesitancy in using your assistance should occasion again demand."

**Miss Nannie Warder, Wolfe Hall, Denver, Colo.**—"It affords me pleasure to bear testimony to the ability of Messrs. C. H. Evans & Co.'s AGENCY, and to their faithfulness to their patrons. Through the AGENCY I secured a most excellent position."

**Hon. E. B. Neely, Supt. City Schools, St. Joseph, Mo.**—"Having had occasion to apply to you for assistance in obtaining a teacher for our High School, I wish to say that the teacher recommended by you was a gentleman of fine character, ripe scholarship, and an experienced and excellent teacher."

It gives me great pleasure to make this statement, and to recommend your BUREAU to all parties desiring to secure good teachers."

**Hon. Wm. J. Davis, Sec'y School Board, Louisville, Ky.**—"We have used the AMERICAN TEACHERS' BUREAU, and have found it efficient. The managers, Messrs. C. H. Evans & Co. are prompt and reliable."

**Pres. F. A. Friedly, De Pauw College, New Albany, Ind.**—"I have found your AGENCY invaluable to me in filling vacancies in my corps of teachers. Without exception you have given me the teacher desired for any department. Accept my thanks for promptness and efficiency."

**Hon. W. T. Hamner, Co. School Com., and Supt. City Schools, Greenfield, Mo.**—"I take pleasure in stating that I have used the AMERICAN TEACHERS' BUREAU, and have found it highly efficient in every way. They are perfectly reliable and will do all they promise. No growing and progressive teacher can afford not to connect himself with the BUREAU."

**Pres. G. S. Albee, State Normal School, Oshkosh, Wis.**—"In my quest for teachers I found your list large, and the correspondence, both of your office and candidates, prompt and business-like."

**Hon. W. W. West, Supt. City Schools, Duluth, Minn.**—"I take pleasure in testifying to the efficiency of your BUREAU. The three teachers whom you so promptly furnished us are all good."

**Pres. W. J. Davis, Cherokee National Male Seminary, Tahlequah, Ind. Ter.**—"A few days after I registered with you I was introduced to the Cherokee National Board of Education, and was elected President of the National Male Seminary. The Prof. of Natural Sciences in this institution, recommended by your AGENCY, is in every respect satisfactory. It seems you have wonderful facilities for furnishing the right man for the right place."

**Hon. E. L. Owen, Sec'y Cherokee Board of Education, Vinita.**—"We have secured a number of teachers through your BUREAU, and owing to the number to choose from and the extent of the information given concerning the individual, we have been very successful in securing excellent material."

**Prof. Albert C. Hale, Brooklyn, N. Y.**—"Having had occasion to avail myself of the services of the AMERICAN TEACHERS' BUREAU while holding the position of President of the Colorado State School of Mines as well as at other times, and having found it always a prompt, and reliable AGENCY, I can commend it unhesitatingly to the confidence of the educational public."

**Hon. C. D. Rakestraw, Supt. City Schools, Nebraska City, Neb.**—"It affords me great pleasure to testify in regard to the efficiency and promptness with which the AMERICAN TEACHERS' BUREAU does its business. Finding it necessary to change my location on account of health, I applied to C. H. Evans & Co. for a position as Supt. of Schools, and in reply I was informed in regard to several vacancies, one of which I accepted and found the same to be as represented by the BUREAU."

**Prof. R. W. Douthat, Ph. D., of the Missouri School of Mines, and Manager of the Western Musical Conservatory.**—"I am satisfied from a large experience that western schools and western teachers would find that your BUREAU can more certainly and more fully meet their wants than any of the Eastern Bureaus."

**Pres. J. C. Gilchrist, State Normal School, Cedar Falls, Iowa.**—"I take pleasure in saying that I am acquainted with the AMERICAN TEACHERS' BUREAU, and that it has proven itself to be honorably and efficiently managed. I believe that all who deal with it will be pleased with the results."

**Miss Isabel R. Scott, Teacher in Neb. State Normal School.**—"Through the assistance of the AMERICAN TEACHERS' BUREAU, I find myself filling a position as once suitable and agreeable."
